

October 1, 2008

Dear Parents/Guardians,

Printed on the back of this newsletter is our school's Report Card for Adequate Yearly Progress. You will note that the last two years are printed so you can see the progress we have made as a school.

Last year our students and staff worked extremely hard and accomplished impressive results. We continue to carefully monitor our students and provide services that challenge their intellects as well as services that re-teach concepts not fully grasped. Please continue to work with us in requiring homework completion and reading for a minimum of 20 minutes per night.

October is another busy month:
